PROFESSIONAL SUMMARY

.NET Developer with 4.5+ years of experience in designing, developing, and maintaining web applications using C# and .NET technologies. Experienced in building REST APIs, working on legacy system migrations, and integrating cloud services such as Azure Service Bus and AWS Lambda. Comfortable collaborating with cross-functional teams in Agile environments to deliver business solutions.

TECHNICAL SKILLS

• C# • .NET Core • ASP.NET Core Web API • MVC • SQL Server • Entity Framework • RabbitMQ • Azure Service Bus • Azure Web Jobs • AWS (DynamoDB, Lambda) • React • REST APIs • Microservices • Agile/Scrum • CI/CD • Swagger • Postman • Jira • GitHub Copilot

PROFESSIONAL EXPERIENCE

NiCE – Pune

August 2024 – Present

Software Engineer

Project: Reports & Online Bill Migration Project

Migrated and modernized legacy billing and reporting applications to Microsoft .NET technologies, improving system reliability and performance.

- Designed and developed backend APIs, billing modules, and reporting workflows using C#, .NET Core, and SQL Server.
- Built asynchronous processing services and integrated Azure Service Bus and RabbitMQ for scalable, event-driven communication.
- Debugged production issues, enhanced application performance, and collaborated with QA and business teams during deployments and production support.
- Contributed to frontend enhancements using Vue.js, improving user-facing billing interfaces.
- Implemented enhancements for invoice details, payment options, and remit functionalities within billing systems.

Technologies: C#, .NET Core, ASP.NET Core Web API, MVC, SQL Server, React JS, RabbitMQ, Azure Service Bus, Azure WebJobs

Cognizant Technology Solutions

December 2021 – July 2024

Software Engineer (Programmer Analyst Trainee → Software Engineer)

Project: Order Management System

Developed a frictionless order submission system that automated order processing and reduced customer connection time by 5–8 days through seamless middleware integration.

- Designed, developed, tested, and maintained full-stack software solutions aligned with business requirements and SDLC best practices.
- Built clean and efficient backend services using C# and .NET Core, reducing processing bottlenecks by streamlining REST API workflows.
- Implemented REST APIs, middleware integration, and order processing workflows using ASP.NET Core Web API.
- Identified and resolved software defects and performance issue, contributing to a stable and reliable production environment.
- Collaborated with development and QA teams throughout the entire SDLC lifecycle in an Agile/Scrum environment.

Technologies: C#, .NET Core, ASP.NET Core Web API, MySQL, Kibana, AWS (DynamoDB, Lambda), Swagger

CERTIFICATIONS

- .NET 5 Web API & Entity Framework
- Develop AI Solutions in Azure (Microsoft)
- IoT Workshop

AWARDS & RECOGNITION

- NICE Hackathon Winner 2025 – Selected as winning team among competitive engineering submissions.
- Cognizant Cheers Award – Recognized for exemplifying the spirit of excellence and dedication.

EDUCATION

B.E. – Computer Engineering | Savitribai Phule Pune University, Pune

2021

Aggregate: 8.51 CGPA
